

carries several sensors and data links to enhance its ability to operate in hostile environments and in coordination with group forces. The aircraft is night vision compatible. The sensitive technologies include:

a. Communications security devices contain sensitive encryption algorithms and keying material. The purchasing country has previously been released and utilizes COMSEC devices in accordance with set procedures and without issue.

b. Identification Friend or Foe (IFF) (KIV-78) contains embedded security devices containing sensitive encryption algorithms and keying material. The purchasing country will utilize COMSEC devices in accordance with set procedures.

c. GPS PPS/SAASM/MGUE/ADAP—Global Positioning System (GPS) Precise Positioning Service (PPS) provides space-based Global Navigation Satellite System (GNSS) signals that have reliable location and time information in all weather, at all times, and anywhere on or near the earth when and where there is an unobstructed line of sight to four or more GPS satellites. The Selective Availability/Anti-Spoofing Module (SAASM) and Modernized GPS User Equipment (MGUE) are used as military embedded GPS receivers (EGRs) to provide for decryption and use of the GPS PPS by the Embedded GPS/Inertial Navigation System (EGI). In addition, the Advanced Digital Antenna Production (ADAP) GPS anti-jam protection system provides electronic protection from enemy countermeasures to disrupt and jam GPS signals. The combination of the EGI and the ADAP provide for robust positioning, navigation, and timing (PNT) capability.

2. All the mission data, including sensitive parameters, is loaded from an off board station before each flight and does not stay with the aircraft after electrical power has been removed. Sensitive technologies are protected as defined in the program protection and anti-tamper plans.

3. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware or software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Israel can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Israel.
